The roses that always stay beautiful

# About RoseAmor

## Discover the magic of preserved roses

Step into the world of timeless beauty with preserved roses of RoseAmor. These roses retain their natural beauty for years, without water or care.

Our roses are grown in the high-altitude regions of Ecuador, a place known for its ideal climate and perfect growing conditions. This unique environment produces exceptionally strong and beautiful roses, also known as long life, eternity, or forever roses.

What makes them so special? It's all in the preservation. Each rose is carefully treated with an eco-friendly solution immediately after harvesting. The result? A soft, vibrant and colorfast rose that looks freshly picked.

Each RoseAmor rose is selected and treated with exceptional care and craftsmanship, ensuring lasting quality and timeless elegance. Available in a wide range of colors and sizes, they're perfect for everything from refined table pieces to bold floral installations.

RoseAmor by Four Seasons Quality supplies exclusively to wholesalers, retailers, event planners, florists, and other professional businesses.

# RoseAmor & Four Seasons Quality

Two brands, one passion: roses of exceptional beauty and quality

Four Seasons Quality (FSQ) is the exclusive partner of RoseAmor, a collaboration we are proud of! FSQ is involved in trading high-quality roses in Europe and various international destinations. Most of these roses come from Ecuador. Since its founding, FSQ has been a household name in the rose world when it comes to quality and reliability. The roses from Ecuador, which meet FSQ's strict quality standards, arrive in the Netherlands on conditioned and direct flights.

Our mission? To deliver the best roses the market has to offer. This unique collaboration was born from that philosophy.
